

FIRE STATIONS

For over 10 years Steelplan Kitchens has been providing solutions of durable kitchen cabinets for Fire Brigades throughout the United Kingdom. In high usage areas such as Food Kitchens, Staff Rest Rooms and B.A. Rooms and other similar rooms where traditional domestic kitchen cabinets are used but the run of the mill wooden/MFC/MDF construction cannot cope with the rigorous daily, 24 hour usage, Steelplan's metal carcass and doors have proved the answer.

The steel painted kitchens retain the required aesthetic and yet provide the surveyor's dream of low maintenance and decades of use. More importantly, installing a Steelplan Kitchen saves you money over its long life cycle.

"the surveyor's dream - low maintenance for decades..."

STEELPLAN KITCHENS

WEALDSTONE ROAD ~ KIMPTON INDUSTRIAL ESTATE ~ SUTTON ~ SURREY ~ SM3 9RW

KITCHENS & B.A. ROOMS

The need for a very strong, long lasting kitchen does not mean that you have to sacrifice the aesthetics. Once you have the peace of mind of specifying the Steelplan metal carcass kitchens you can then select door colours and worktops to suit your decor. This means that you can have anything from the clean, hygienic feel of a clinical room through to a vibrant mix of bold colours and luxury touch worktops.....

DDA COMPLIANT

Steelplan Kitchens offer a range of solutions to ensure that your facilities are fully DDA compliant....

STAFF REST ROOMS

Kitchen area's come in all shapes and sizes. Whether small or large Steelplan Kitchens will design, manufacture and supply the equipment to suit the exact needs appropriate for the number of staff using the facility.

MEDICAL ROOMS

The specification of cabinets in medical rooms is very important. It must satisfy a demanding list of essential qualities; be strong, durable, easy to clean and must not harbour insects or bacteria to name a few. In any health based room cleanliness is paramount and the cabinets must be able to cope with a high amount of daily cleaning with water based detergents.
